AcmeNova Technologies — RAG Knowledge Base

Synthetic company knowledge base for testing a Retrieval-Augmented Generation (RAG) chatbot.

1. Company Overview

AcmeNova Technologies is a fictional software company founded in 2018. Its headquarters are located in Bengaluru, India. The company develops cloud-based business software for small and medium-sized organizations.

AcmeNova has three primary product lines: NovaCRM — customer relationship management software; NovaDesk — customer support and help-desk software; and NovaAnalytics — business intelligence and reporting software.

As of January 2026, AcmeNova has 420 employees distributed across offices in Bengaluru, Singapore, London, and Toronto.

The Chief Executive Officer is Maya Rao. The Chief Technology Officer is Daniel Kim, and the Chief Financial Officer is Priya Menon.

2. NovaCRM

NovaCRM is AcmeNova's customer relationship management platform. It helps organizations manage contacts, sales opportunities, customer interactions, and sales pipelines.

NovaCRM was launched in March 2019.

The Standard plan costs $39 per user per month. The Professional plan costs $69 per user per month, while the Enterprise plan uses custom pricing.

The Standard plan supports up to 10,000 customer records per account. The Professional plan supports up to 100,000 records. Enterprise customers receive unlimited customer records subject to reasonable-use policies.

NovaCRM supports integrations with Slack, Microsoft Teams, Google Workspace, and Salesforce.

The Professional plan includes automated sales reports, custom dashboards, workflow automation, and API access.

3. NovaDesk

NovaDesk is AcmeNova's customer-support platform. It provides ticket management, knowledge-base functionality, customer communication, and support-team analytics.

NovaDesk was launched in September 2020.

NovaDesk has three plans: Starter: $25 per agent per month; Business: $55 per agent per month; Enterprise: custom pricing.

The Starter plan allows up to 5 support agents.

The Business plan allows up to 50 support agents and includes SLA management, advanced reporting, and automated ticket routing.

The Enterprise plan supports unlimited agents and includes dedicated technical support.

NovaDesk stores customer data in encrypted databases. Customers can choose between data hosting in the United States, European Union, or Singapore.

4. NovaAnalytics

NovaAnalytics is AcmeNova's business intelligence platform.

It was introduced in February 2022.

NovaAnalytics allows users to connect data sources, create dashboards, build scheduled reports, and monitor key business metrics.

The platform supports CSV, Excel, PostgreSQL, MySQL, and REST API data sources.

NovaAnalytics has two paid plans: Professional: $89 per user per month; Enterprise: $149 per user per month.

The Professional plan allows up to 50 data sources per workspace.

The Enterprise plan allows up to 500 data sources per workspace and includes priority support.

NovaAnalytics retains historical dashboard data for 24 months on the Professional plan and 60 months on the Enterprise plan.

5. Security

AcmeNova follows a security program based on industry-standard security practices.

All AcmeNova products require HTTPS/TLS encryption for data transmitted over the internet.

Customer passwords are stored using salted cryptographic hashing rather than plain text.

AcmeNova performs automated vulnerability scans every week.

A third-party security audit is performed annually.

AcmeNova's incident-response team must begin investigating a confirmed critical security incident within 30 minutes of detection.

Customers are notified of confirmed security incidents affecting their data within 72 hours, unless a longer period is legally required.

6. Data Retention

NovaCRM customer records are retained while the customer's subscription remains active.

After a NovaCRM subscription is terminated, customer data is retained for 30 days before permanent deletion.

NovaDesk ticket data is retained for 90 days after account termination.

NovaAnalytics historical dashboard data follows the retention periods defined by the customer's plan.

Enterprise customers may negotiate custom retention requirements through their contractual agreement.

7. Customer Support

AcmeNova provides customer support through email, chat, and an online support portal.

Standard support hours are Monday through Friday, 9:00 AM to 6:00 PM India Standard Time.

Enterprise customers receive 24/7 critical-incident support.

The target first-response time for Business-plan NovaDesk customers is four business hours.

The target first-response time for Enterprise NovaDesk customers is one hour for critical incidents.

These response times are targets rather than guaranteed resolution times.

8. Employee Policies

AcmeNova employees receive 24 paid vacation days per calendar year.

Employees may work remotely up to three days per week with manager approval.

Employees who have been with the company for at least two years receive an additional five paid personal days per year.

The company provides a learning budget of $1,200 per employee per calendar year.

Employees can use the learning budget for professional courses, conferences, certifications, and technical books.

9. Offices

Bengaluru Office: The Bengaluru office is AcmeNova's headquarters and has approximately 220 employees. The Bengaluru office contains the company's primary engineering organization and executive leadership team.

Singapore Office: The Singapore office has approximately 80 employees. It primarily supports customers in Asia-Pacific.

London Office: The London office has approximately 70 employees. It primarily supports customers in Europe and the Middle East.

Toronto Office: The Toronto office has approximately 50 employees. It primarily supports customers in North America.

10. Leadership

Maya Rao has served as Chief Executive Officer since January 2023.

Daniel Kim has served as Chief Technology Officer since July 2021.

Priya Menon became Chief Financial Officer in April 2024.

The company's Chief Operating Officer is Jonathan Lee, who joined AcmeNova in November 2022.

11. Product Relationships

NovaCRM and NovaDesk can exchange customer information through AcmeNova's internal integration framework.

For example, when a NovaCRM customer creates a support request, the customer's account information can be made available to NovaDesk.

NovaAnalytics can connect to reporting data generated by both NovaCRM and NovaDesk.

A company using all three products can therefore build dashboards combining sales activity, customer-support activity, and business metrics.

12. Important Dates

2018 — AcmeNova Technologies founded.

March 2019 — NovaCRM launched.

September 2020 — NovaDesk launched.

July 2021 — Daniel Kim became CTO.

February 2022 — NovaAnalytics introduced.

November 2022 — Jonathan Lee joined as COO.

January 2023 — Maya Rao became CEO.

April 2024 — Priya Menon became CFO.

January 2026 — Company employee count reached approximately 420.

13. Example Customer Scenario

BluePeak Retail is a fictional AcmeNova customer using NovaCRM Professional and NovaDesk Business.

BluePeak has 35 sales employees and 20 customer-support agents.

Because BluePeak uses NovaCRM Professional, it can use workflow automation, custom dashboards, API access, and up to 100,000 customer records.

Because it uses NovaDesk Business, it can have up to 50 support agents and use SLA management, advanced reporting, and automated ticket routing.

BluePeak's support team therefore has sufficient capacity under its current NovaDesk plan because it has 20 agents while the plan permits up to 50.

BluePeak can also connect reporting information from NovaCRM and NovaDesk to NovaAnalytics, allowing management to create combined reports covering sales and customer-support activity.
